ITANA (un)Conference 2012: Two topics made it to the top for this (un)Conference: the first was a high-level architectural framework for Teaching and Learning. This includes a capability map. Watch for a working group to form on this topic. The second was a framework for walking people through ITANA's works and other resources. This framework includes a high-level business process flow and links to case studies or resources. Watch for a call to discuss how this could shape ITANA's work.
