InCommon Trusted Access Platform Release

Docker Containers

These Docker containers simplify the installation and configuration of the software. They are pre-configured to work well with the InCommon Federation.

Shibboleth IdP Docker Linux Container (5.1.1)

- Current release: 20240320
- Container Image Name: i2incommon/shib-idp:5.1.1_20240320_rocky8_multiarch
  - For 4.3.1: i2incommon/shib-idp:4.3.1_20240318
- Notes: IdP Version 5.1.1 with Java 17 and Tomcat 10.1.19
- Container Source Code (5.1.1)
  - 4.3.1

Shibboleth IdP Config Builder Container

- Current release: 0.7
- Notes: add views directory to generated config
- Container Download
- Container Source Code

Shibboleth SP Linux httpd Container (3.4.1)

- Current release: 20230612
- Container Image Name: i2incommon/shibboleth_sp:3.4.1_06122023
  - Rocky8/Multi-Architecture: i2incommon/shibboleth_sp:3.4.1_06122023_rocky8_multiarch
- Notes: Remediates issue with XML Tooling Library
- Container Source Code

Shibboleth IdP-UI Docker Linux Container (1.18.0)

- Current release: 1.18.0 - 2023/07/18
- Release Notes
- WAR file release
- Container Image Name: i2incommon/shib-idp-ui:1.18.0
- Container Repository
- Container Source Code
- User Guide

Grouper Linux Container (v5 experimental)

- Experimental release: 5.7.1
- Container Image Name: i2incommon/grouper:5.7.1
- Container Source Code
- Release Notes

Grouper Linux Container (v4 stable)

- Current release: 4.11.0
- Container Image Name: i2incommon/grouper:4.11.0
- Container Source Code
- Release Notes

COmanage Registry Linux Container (4.3.2)

- Current release: 4.3.2
- Container Image Name: i2incommon/comanage-registry:4.3.2-20231211
- See also the COmanage Registry Cron image: i2incommon/comanage-registry-cron:4.3.2-20231211
- Container Source Code
- Release Notes
- Notes on cron container for running Registry JobShell jobs

COmanage Match Linux Container (1.2.1)

- Current release: 1.2.1
- Container Image Name: i2incommon/comanage-match:1.2.1-20231211
- Container Source Code
- Release Notes

midPoint Linux Container (4.8)

- Current release: 4.8
- Container Image Name: i2incommon/midPoint:4.8
- Container Source Code
