

NET+ Docusign: Fall 2024 Newsletter

Hello Everyone,

Happy September! Welcome to the inaugural edition of the NET+ Docusign quarterly newsletter for our program subscribers. My name is Jenna Mallberg, and I joined the Internet2 team back in June of 2022 as an intern, and now after graduating with both a BSBA in MIS and an MBA, I joined officially full time in May of 2024. I serve as a NET+ Associate Program Manager for the Software as a Service Portfolio. I collaborate with our [Miro](#) and [DryvIQ](#) communities as well and have spent the past few months of my internship transitioning and familiarizing myself with all the exciting developments within Internet2. I'm eager to work with all of you to ensure that your institution feels fully supported by our program.

We hope you find this newsletter to be a valuable resource in keeping you informed about the latest developments with the program. Please share this newsletter freely with your teams and other institutions. In this newsletter, I'll be sharing program updates, important announcements, insights from our Service Advisory Board, and information about upcoming events that you might find interesting. Let's dive in!

NET+ Docusign Community News

Did you know that there's a Program wiki page dedicated to all things [NET+ Docusign](#)? This is always a great place to start if you have any questions about program information and announcements.

We are excited to announce upcoming open hours for the NET+ Docusign community! Join us on October 8 and February 11 at 1:00 pm ET/10:00 am PT for interactive sessions where you can connect with peers, ask questions, and gain insights into using Docusign more effectively! More details on open hours are coming soon...

Mark your calendars for the [NET+ Webinar Series](#):

Our series will kick off with an overview of the NET+ program, Cloud Scorecard, and CLASS

From there, we'll dive into program-specific webinars led by NET+ program managers that feature service histories, unique program activities, use cases from universities, and insights from their Service Advisory Boards. Leave each session with a better understanding of special contract terms and program events that would benefit your institution. *On Oct 10, 2:00pm ET*, NET+ ServiceNow, NET+ Docusign, and NET+ Splunk will collaborate on how NET+ focuses on

achieving optimal pricing, robust security features, and seamless technical integration that align with educational environments | [Click here to register](#)

Around Internet2 and Beyond

“Quick Reads” from other programs:

- [NET+ DryvIQ](#) collaboration paves the way for Higher Ed cloud storage migrations at speed and scale | [Read more →](#)
- Echo Labs Advanced Captioning and Transcription Technology Solutions to Join Internet2 NET+ Program | [Read more →](#)
- Internet2 Events - [Tech Ex](#) and [CommEx](#)
 - The [2025 Community Exchange](#) is slated for April 28 – May 1 in Anaheim, Calif.
 - [Call for Proposals due Sept 13](#)
- Have you explored the Internet2 [Cloud Scorecard Directory](#)? We get it – the sheer volume of cloud services available to institutions can quickly overwhelm current practices for assessment and procurement. The Internet2 Scorecard is a self-assessment completed by the vendor using standards and best practices developed within the research and education community. [Use these instructions](#) to log in.

DocuSign Announcements

DocuSign continues to strengthen its commitment to trust and security, particularly in the public sector. DocuSign has implemented robust measures to ensure the confidentiality, integrity, and availability of document data within its secure agreement platform. By focusing on platform, information, and compliance security, DocuSign helps government agencies mitigate the risk of data breaches, maintain the validity of signatures, and foster trust with constituents. These efforts align with the goal to provide secure, efficient digital transformations across various sectors, reinforcing its position as a leader in e-signature and contract lifecycle management.

Recently, DocuSign introduced the "[Get Inspiration](#)" initiative on its community platform, designed to inspire users by showcasing creative and effective ways others are using DocuSign's tools.

In addition, a case study highlights [how the University of Virginia is leveraging NET+ DocuSign's program](#) to streamline administrative processes, save time, and reduce paper usage, further demonstrating DocuSign's commitment to enhancing efficiency and sustainability across various sectors.

Thank you, and Happy Fall!

If you're still reading, thanks for making it this far! I'd love to hear from you at netplus@internet2.edu if you have questions or ideas about the NET+ DocuSign program. If you have concerns related to pricing, order forms, agreement terms, etc. let us know.

Kind Regards,

Jenna Mallberg, MBA
