

# The Engine / Ecosystem

# The “Stack” of Enabling Capabilities Supporting Product Delivery

# Capital Planning and Development - Business Outcomes and Capabilities - 3/28

## UW business outcomes that CPD supports

### Student Experience

- > Provide quality student housing
- > Improve learning environments
- > Accommodate areas of growth

### Innovation Mindset

- > Combine UW investments with private development to attract research partners

### Public as a Philosophy

- > Attach development of open spaces to major projects and private development

### Transforming Administration

- > Increase flexibility
- > Renew infrastructure
- > Leverage new and existing funding sources

Relationship  
Management

Rent Allocation  
& Opex  
Management

Contract  
Standard  
Development

## Core Capabilities - Built Environment Change Management

## Enabling Capabilities (what we do to enable ourselves and support delivery)

Business  
Analysts

Data  
Stewardship

Technology  
Management

HR Management

Financial  
Management  
(inc metro tract)

Project  
Coordination

# CPD Organizational Development

Questions we need to address (and own):

1. What should we be doing? - What should we not be doing?
2. What functions enable the doing? - What is missing and what is not needed?
3. What skills, experience, resources do we need for missing functions?
4. How should we change the org to address this?
