December Meeting Recap

December brought the last meeting of the calendar year. Yet, it was not a time to slow down and reflect. Instead, it was a time to press forward with making sure the program continues to meet the needs of the community. First off was a discussion on accessibility. The result of which will be a concerted effort by participants who have a passion in this area. A sub group will be formed with a charge from the Board to work on this area. Details will be forthcoming once the charge has been finalized. Second up was a discussion on the higher education roadmap with regards to the platform. The Board worked with ServiceNow on areas in which ServiceNow could expand with specific regards to higher education needs. The meeting was concluded on time.
