## What's New - Quebec Release

### [Domain Separated Tables](#)

See at a glance which tables are domain-separated in your instance.

### [Domain Override Viewer](#)

See and manage all your process overrides at once across the entire instance.

### [IntegrationHub Remote Process Sync](#)

When integrations require the transform and mapping of data across different tables between two instances, ServiceNow remote system administrators can now use generic record management actions to integrate any two tables. See also the IntegrationHub Release Notes.

### Subscription Management Domain Specific Reporting

System administrators with a new dashboard can enable program and account management with greater detail on license and subscription unit consumption, making cost recovery easier.

### ITOM: Global MID-Server for Cloud Provisioning and Governance (CPG)

Service providers can provision a single MID-server to handle certain cloud actions in CPG without having to managing multiple, discrete MID-servers. See also the ITOM Optimization release notes.

### Platform User Interface (UI) Builder

With the UI Builder with domain separation, support system administrators and delegated developers can build modern user interfaces and actions in a visual design studio without costly customizations. See also the UI Builder release notes.

## August Meeting Recap

### An Update on the ServiceNow Business Model

To start off the meeting, Wanda Burgamy (ServiceNow) gave an update on the recent Rome release of the Now Platform. This product has come a long way since the original Aspen release in 2013! The IT Service Management Enterprise and Customer Service Management Enterprise are important new additions. There will be further updates to come throughout the fall related to the Rome release.

### Accessibility Discussion

The time has come to update our accessibility language with ServiceNow. 12 ServiceNow Advisory Board institutions are invited to collaborate on this initiative in cooperation with their attorneys. If you are interested in contributing to this initiative, please reach out to Matthew Buss ([mbuss@internet2.edu](mailto:mbuss@internet2.edu)) by August 13th. Thank you to all who participated for your insightful feedback, ideas, and discussion! Should you have any questions or want further information around the work being done by the NET+ ServiceNow Advisory Board, please don't hesitate to visit us at <https://spaces.at.internet2.edu/pages/viewpage.action?pageId=166660230> or contact us at [netplus@internet2.edu](mailto:netplus@internet2.edu) and we will be happy to respond.

## SNOW Higher Education Group - Mailing List

This mailing list is for ServiceNow customers or potential customers who are members of higher education institutions. There are many collaborative resources available for ServiceNow customers, for ITIL/ITSM, and for higher education, but none specifically in the space that crosses all three. In that context Karen Van Dusen (Carnegie Mellon University) and Hillary Rosenfeld (Boston University) maintain this list for anyone who is a ServiceNow customer and in higher education. Topics typically range from ServiceNow implementation and adoption strategies in higher ed to networking planning for events like ServiceNow's Knowledge conferences.

To participate visit (no vendors please): [groups.google.com/group/snow-higher-ed](https://groups.google.com/group/snow-higher-ed)

### The most recent topics of discussion on this mailing list were:

- ServiceNow Governance across functions at the University
- ITBM Usage
- JIRA/ServiceNow Integration
- Handling guest in ServiceNow with the OOB Survey
- Inconsistent Chat Notifications for Live Agent
