- Members approved the Dec 2022 Summary notes.
- Emily provided an update on the January 9th VMWG meeting. The group created a working definition of Vendor Management for Higher Ed/Research for the purpose of the committee. Sub-groups and leads based on focal areas were identified.
- Dave led a discussion on Internet2's Five-Year Roadmap development. He asked members to provide input based on these prompts:

  - What new Internet2 services or programs could help you create opportunities or address challenges faced by those you serve in the research and education community?
  - Do you have any suggestions related to adjustments to the NET+ program that would help you provide services and support to the research and education community?

  Members were forthcoming with their perspectives and offered suggestions and ideas for improvement and opportunities to serve the community.
