

NET+ BPLAC Meeting Summary

October 13, 2021

Attendees: Matt D’Emilio, Bobby Clark, Joe Holewa, Emma Levett, Carrie Shumaker, Lester Greenman, Kevin Morooney, Sean O’Brien, Sue Gavazzi, Loren Malm

- Bobby invited BPLAC members to submit nominations to fill vacancies on the committee. Characteristics for consideration are colleagues with legal/vendor management/accessibility roles, from small universities, non-east coast locations, HBCUs, HSIs, etc. Please forward nominations to Bobby or Sue before the November meeting.
- Sean provided a sneak peak of the Cloud Scorecard wiki page, which will be behind authentication. The pilot launches on November 4th and there will be a community group formed for feedback intake. Sean is looking for representation from those with Procurement roles for the group and will send an email description to BPLAC members for forwarding to potential participants. Members will be able to send a link to vendors to submit their info to the Scorecard. BPLAC members provided feedback to Sean on current and future phases of the project.
- Matt presented a [draft document of the Stakeholder Summary](#) and requested feedback from committee members for discussion at next month’s meeting. The intent of the document is to provide an index that points to sections of the NET+ service contract that are of concern to various stakeholders.
- Bobby and Sean encouraged BPLAC members to register, and invite their colleagues, to the [10-Year Celebration of the NET+ Program](#) on October 21st at 3pm ET.
