NET+ Canvas Service Advisory Board Meeting
May 10th, 2023

See meeting agenda items under Canvas Advisory Board Section

Instructure Updates

The latest from Instructure regarding Canvas product offerings.

Why Choose: The Benefits of Integrating Google Classroom with Canvas LMS

As the #1 educational software, Canvas LMS provides educators with a centralized learning hub of all their favorite tools, like Google Classroom, Microsoft Teams, Zoom, Adobe, and hundreds of other technology partners. Powerful integrations can elevate course delivery with time-saving features that provide individualized learning and feedback while fostering a more collaborative and immersive experience for all learners. **Read more here**.

Chaffey College: Customizing a CBE Vision at Scale

In one year, Chaffey College used Canvas Credentials to issue more than 10,000 micro-credentials, but wanted a more automated way to integrate data from Canvas Outcomes. Learn how Chaffey College worked with the Instructure Custom Development team to develop a

Credentials-Outcomes Alignment Tool that helps turn their outcomes assessment process into a more valuable and impactful experience. **Learn more here**
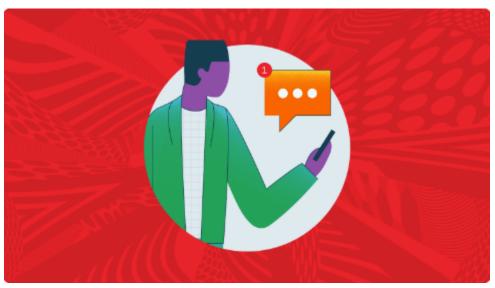

20 Ways to Use Canvas for Face-to-Face Learning

Learn actionable tips and tricks from educators who use Canvas to drive in-person learning. **Read more here**

## 3 Ways Community Colleges are Attracting Students in Today's Digital World

Community colleges play an essential role in higher education, but the difficulty of recruiting and retaining students is a continuous challenge. This is partly due to the lack of access to financial or structural support for students to refine their skills and show them to employers. By using the Instructure Learning Platform, community colleges can leverage accessible tools to deliver teaching in an effective and efficient way, as well as provide students with a smooth transition from courses to a career. **Read more here**

NET+ Canvas Program Update

Service Advisory Board Goals for 2023

Goal #1
Continue to have timely discussions about Customer Experience as it relates to Instructure products and services, the NET+ Canvas program, our community, as well as future Instructure M&A conversations.

Deliverable: Continue to update/refine Canvas Institutional Profiles for effective collaboration within the program.
Deliverable: Bring to light community needs that are not being addressed otherwise in these areas.

Goal #2
Instructure to conduct semi-annual product roadmap discussion and a review of the R1 Peers/I2 product feature request list.

Deliverable: Continue to develop and refine, with Shaun Moon and Kevin Turco, a strategy and process for I2 and R1 Peer universities to provide Instructure with actionable information on pain points and unmet needs. The strategy and process should be synced with Instructure's product development cycle and allow Instructure to clearly communicate status and progress back to the universities.

Goal #3
Initiate advisory board input on Instructure's platform strategy as it relates to third party vendors and data integration/mash-ups.

Deliverable: Focused discussion with Kevin Turco and Karl Lloyd.
Deliverable: Focused discussion on what universities are doing with Canvas data and live events. What action do the data feed?
Deliverable: Implement this goal's outcomes effectively within the Canvas Institutional Profiles for further collaboration.

Goal #4
Continue Instructure product strategy discussions with Jared Stein.

Around the Community

Commentary from I2 Canvas users: advice, best practices, feedback.

R1 Peers

The Canvas Peers Research Universities Group (or R1 Peers Group) brings together representatives from large public and private research universities to share best practices around using Canvas and the surrounding ed tech ecosystem to support

teaching and learning. They also collaborate closely with Instructure (Canvas vendor) and sit on the Internet2 NET+ Canvas Service Advisory Board to improve the Canvas platform and user experience for research universities. This group represents more than 250 members from 45 institutions of higher education and research across the United States, and around the world.

For context, recently the R1 Peers Group has collaborated in the following areas:
➔ Tier 1 support
➔ Archiving
➔ 3rd party integrations
➔ Pain points
➔ Data privacy

LRS Standards SIG

The Learning Records Store (LRS) Special Interest Group (SIG) assembles use cases for an LRS, creates an LRS reference architecture, and develops implementation/engineering best practices. The SIG promotes open standards that enable data from a variety of teaching and learning tools to be included in the LRS.

This group is chaired by the University of Washington and meets monthly on the fourth Wednesday of the month, however the LRS SIG is currently on hold until May 2022. For more information or to join this group, please reach out to Matthew Buss (**mbuss@internet2.edu**). Thank you.
