

## **AGENDA**

Health Sciences Advisory Committee (HSAC)  
Internet2 Fall Member Meeting in Raleigh, NC.  
Monday, Oct 3rd, 2011, 10:30 am - 1:00 pm EDT  
Room 201

This invitation-only meeting is divided into three working sessions. The first session is directed toward the biomedical research community, while the last two sessions are focused on services for health care providers. Please attend any of the sessions that interest you. You are invited to participate on-site in Raleigh, NC, (Room 201) or remotely using the audio bridge information listed below:

Audio bridge dial-in: [734-615-7474](tel:734-615-7474) or [866-411-0013](tel:866-411-0013) (toll-free in US)  
Access Code: 0110779#

### **10:30 am - 11:25 am EDT - Cyberinfrastructure for Global Health Collaboration**

This session will review the needs of biomedical researchers engaged in global collaborations and address the following questions:

- Who is conducting research that requires global collaboration?
- What are the problems that make global collaboration difficult?
- How can advanced networks like Internet2 support global collaboration?
- Is there a sustainable economic model for advanced networking services?
- Should Internet2 Health Sciences establish a Global Health Working Group?

11:25 - 11:35 Break

### **11:35 - 12:20 Cloud Services for Rural Health Care Providers**

This session will exam the value of cloud services for rural health care providers, especially data backup to the cloud and SaaS-based EHRs.

12:20 - 12:30 Pick up box lunch and return to room

### **12:30 - 1:00 Health Information Exchange for Health Care Providers**

Public, private, and statewide Health Information Exchanges are forming nationwide. What role should advanced networks play in connecting HIEs?
