## Instructure Updates

*The latest from Instructure regarding Canvas product offerings.*

### Through the Eyes of Educators: Insights into Student Engagement

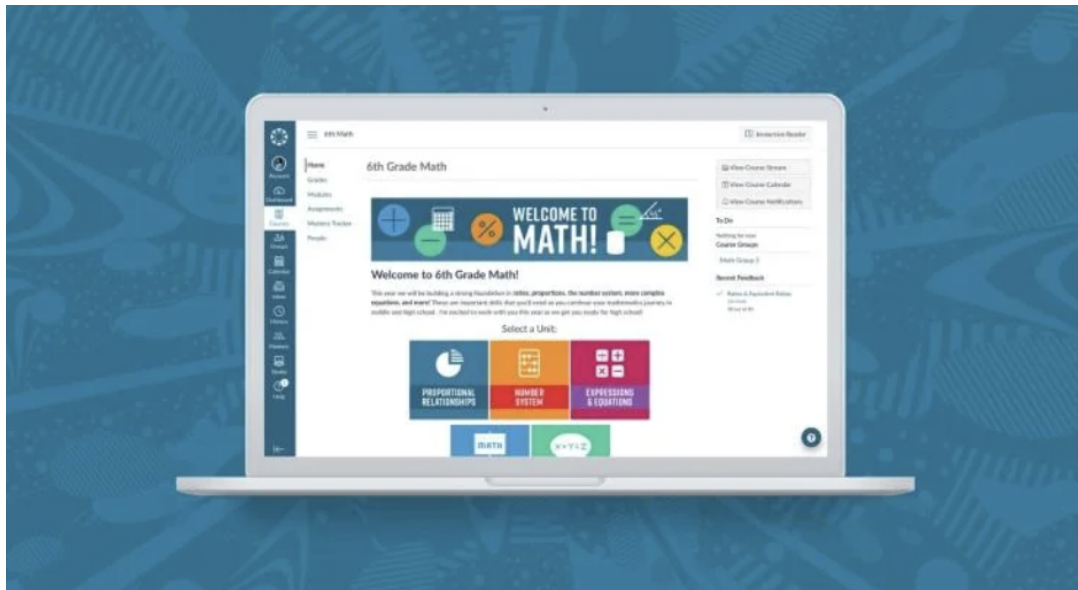

When students are engaged, they are more confident, ask more questions, make connections, and take ownership of their learning. So how can educators increase engagement? We asked education professionals from our community to share their unique perspectives on student engagement, as well as their strategies to boost meaningful involvement. Download our crowd-sourced collection of engagement strategies below. [View the ebook here.](#)

### Bridging the Skills Gap with Competency-Based Education

For many institutions, competency-based education (CBE) has been an effective approach in bridging the skills gap, as it allows students to advance at their own pace based on their ability to demonstrate mastery of a skill, or “competency.” And it can lead to better student outcomes. Here’s how. [Read the blog article here.](#)

## 10 Benefits of Technology in the Classroom

Classrooms that use technology reap many benefits. From accessibility to increased personalization and rich digital resources, teachers are learning how to use technology best to meet the needs of their diverse student population. [Read more here.](#)

# NET+ Canvas Program Update

## Service Advisory Board Goals for 2023

### **Goal #1**

Continue to have timely discussions about Customer Experience as it relates to Instructure products and services, the NET+ Canvas program, our community, as well as future Instructure M&A conversations.

Deliverable: Continue to update/refine Canvas Institutional Profiles for effective collaboration within the program.

Deliverable: Bring to light community needs that are not being addressed otherwise in these areas.

### **Goal #2**

Instructure to conduct semi-annual product roadmap discussion and a review of the R1 Peers/I2 product feature request list.

Deliverable: Continue to develop and refine, with Shaun Moon and Kevin Turco, a strategy and process for I2 and R1 Peer universities to provide Instructure with actionable information on pain points and unmet needs. The strategy and process should be synced with Instructure's product development cycle and allow Instructure to clearly communicate status and progress back to the universities.

### **Goal #3**

Initiate advisory board input on Instructure's platform strategy as it relates to third party vendors and data integration/mash-ups.

Deliverable: Focused discussion with Kevin Turco and Karl Lloyd.

Deliverable: Focused discussion on what universities are doing with Canvas data and live events. What action do the data feed?

Deliverable: Implement this goal's outcomes effectively within the Canvas Institutional Profiles for further collaboration.

### **Goal #4**

Continue Instructure product strategy discussions with Jared Stein.

## Around the Community

*Commentary from 12 Canvas users: advice, best practices, feedback.*

## R1 Peers

The Canvas Peers Research Universities Group (or R1 Peers Group) brings together representatives from large public and private research universities to share best

practices around using Canvas and the surrounding ed tech ecosystem to support teaching and learning. They also collaborate closely with Instructure (Canvas vendor) and sit on the Internet2 NET+ Canvas Service Advisory Board to improve the Canvas platform and user experience for research universities. This group represents more than 250 members from 45 institutions of higher education and research across the United States, and around the world.

For context, recently the R1 Peers Group has collaborated in the following areas:

- Tier 1 support
- Archiving
- 3rd party integrations
- Pain points
- Data privacy

## **LRS Standards SIG**

The Learning Records Store (LRS) Special Interest Group (SIG) assembles use cases for an LRS, creates an LRS reference architecture, and develops implementation/engineering best practices. The SIG promotes open standards that enable data from a variety of teaching and learning tools to be included in the LRS.

This group is chaired by the University of Washington and meets monthly on the fourth Wednesday of the month, however the LRS SIG is currently on hold until May 2022. For more information or to join this group, please reach out to Matthew Buss ([mbuss@internet2.edu](mailto:mbuss@internet2.edu)). Thank you.
