DON'T BE A
ZOMBIE
ABOUT MOBILE SECURITY.

Cyber Security Awareness Month

CYBER SECURITY AWARENESS MONTH

Most of the undead don't realize that their mobile device, if lost or stolen can transmit confidential information without being prompted or authorized. If a mobile device is left unsecured and falls into the wrong hands, it can be a major source of personal and business-related data loss. To protect your information, always secure your mobile device. Below are some tips on mobile device security.

**PROTECT YOUR INFORMATION
FROM THE UNDEAD.**

- SHEILD YOUR PASSCODE
- APPLY THE LATEST PATCHES TO YOUR MOBILE DEVICE
- THINK BEFORE YOU DOWNLOAD APPS.
- ALWAYS SECURITY YOUR MOBILE DEVICE

For more information on this and other computer security topics, visit www.unco.edu/cybersecurity or call the Technical Support Center 24x7x365 at 970-351-HELP (4357)
