SWE@Internet2 Community Announcement

May 27, 2015

Florence Hudson
Senior Vice President and Chief Innovation Officer
Internet2

POWERED BY COMMUNITY

Mission of SWE@Internet2 Community

The mission of the SWE@Internet2 Community is to leverage the great assets, programs and support from the Society of Women Engineers to attract, develop and retain women in Science, Technology, Engineering and Math roles, encouraging them to pursue technical leadership roles and careers.

We will develop the SWE@Internet2 Community to include professional women from the University members of Internet2, both staff and faculty.

Our goals will be to:
- Provide support to enable career development and retention in technical roles
  - Leverage SWE programs for professional and personal development
  - Enable mentoring, including peer-mentoring
- Develop a community of support for women in Internet2
