Working with user data

<write a catchy byline for this>

Jump to:

Getting Started | References and additional reading | Attributes (supported?) in InCommon

Getting Started

• Read me first: An Introduction to User Data
• Choosing the right user identifiers
• Handling data exchange in SAML

Streamline access with entity categories

• What is an entity category?
• REFEDS Research & Scholarship entity category
• <future>REFEDS Authentication Only entity category</>
• <future>REFEDS Anonymouse Authorization entity category</>
• <future>REFEDS Pseudonymous Authorization entity category</>

References and additional reading

• eduPerson LDAP Object Class schema
• SAML v2.0 Subject Identifier Attributes Profile Version 1.0
• <future> Attributes vs "claims" (for the Microsoft / OIDC etc. camp)
• <future> Privacy considerations
• <future> Negotiating data release
• <future> Consent?
