LDIFs

NOTE: These LDIFs have been moved into the wiki from http://www.internet2.edu/products-services/trust-identity-middleware/eduperson-eduorg/

MACE-Dir: eduPerson/eduOrg LDIFs

deuPerson and eduOrg are LDAP schema designed to include widely-used person and organizational attributes in higher education. They were developed, and are maintained, by the Internet2 MACE-Directories Working Group (MACE-dir), a project of the Internet2 Middleware Initiative. These middleware activities are supported by Internet2 and EDUCAUSE.

The Internet2 MACE-Dir Working Group provides this page as a service to the community using or interested in the eduPerson object class. The LDIFs and related resources available here have been contributed by higher-education institutions and are believed to be accurate. No warranty is implied, please contact us at i2mi-info@internet2.edu if you find errors or have suggestions for improvement, or wish to contribute LDIFs or related resources for additional platforms.

NOTE: any references to "eduPerson 1.6" are equivalent to the "eduPerson (200210)"

NOTE WELL: All Internet2 Activities are governed by the Internet2 Intellectual Property Framework.

deuPerson

- Open LDAP for eduPerson (201602)
- OpenLDAP eduPerson (updated to 200806)
- Apache Directory Server eduPerson (updated to 200806)
- Active Directory eduPerson (updated to 201310)
- SunONE eduPerson (updated to 200412)
- Generic eduPerson (updated to 200312)
- Novell eDirectory eduPerson (updated to 200806)

deuMember

- OpenLDAP eduMember (updated to 200507)
- Apache Directory Server eduMember (updated to 200507)

deuOrg

- Generic eduOrg (updated to 200210)

deuCourse

- Apache Directory Server eduCourse (updated to 200507)
