

Grouper UI folder attribute view and edit

View attributes on folders from the new UI

The screenshot displays the Grouper UI interface for viewing and editing folder attributes. At the top right, there is an orange 'Edit folder' button and a grey 'More actions' dropdown menu. Below these are tabs for 'ts', 'Privileges', and 'More'. A search bar labeled 'r, group, or attribute name' is followed by 'Apply filter' and 'Reset' buttons. The main content area shows a list of attributes: 'meta', 'me0', 'me1', and 'meMeta0'. A red arrow points to the 'More actions' dropdown menu, which is open and shows the following options: 'Add to my favorites', 'Create new folder', 'Create new group', 'Attribute assignments', 'Copy folder', 'Delete folder', 'Edit folder', 'Move folder', 'Attestation', and 'View audit log'.
