

Institutional SOA Projects

Institutional SOA projects is a space to describe actual SOA projects that are underway (2012) in various institutions. The projects vary enormously in terms of scope and objectives:

1. Enterprise Architecture SOA planning projects
2. Legacy ERP integration projects
3. Learning technologies integration

Some common questions:

1. What is the "SOA level of maturity" of your organization?
2. What is business domain is being addressed (student records, registration, HR, finance)?
3. Where does this project fall on the project lifecycle: investigation, planning, execution, review?
4. Lessons learned: what worked and what did not work?
