

# Baseline Expectations Adherence by Organization

This page includes lists of organizations with metadata published by InCommon and their alignment with requirements of baseline expectations as expressed in metadata. To update your metadata to meet baseline expectations, InCommon Site Administrators can access the [InCommon Federation Manager](#). Detailed information about each organization and its metadata can be found at the [InCommon All Organizations](#) page.

## Where does this list come from?

This *list of baseline requirements broken out by organization and count of entity descriptors in metadata that meet/do not meet baseline expectations* is produced from the output of a script that is run daily. If you have questions about this data, please contact us at [help@incommon.org](mailto:help@incommon.org).

*This list is refreshed every day after metadata publication.*

Congratulations to those organizations that have fully met baseline expectations in metadata!
