Attribute Assignment UI

[Attribute Framework UIs](#)

The attribute assignment allows you to view / assign attributes.

View or assign attributes

Filter attribute assignments

Owner type: Group

Attribute definition:

Attribute name:

Owner group:

Enabled / disabled: All

Filter Assign

Attribute assignments

	Owner group	Attribute name	Enabled?	Assignment values	Attribute definition	Assignment UUID
	anotherGroup	test1	disabled	another value2	testAllDef	44a87...
Metadata on assignment		test3	disabled		testAllDef	068cf...
	anotherGroup	testAttributeAssignValueDefName2	enabled	test2	testAttributeAssignValueDefName2Def	57b51...
Metadata on assignment		test3	enabled		testAllDef	01b0f...
Metadata on assignment		test2	disabled	whatever2 whatever4	testAllDef	ee5d2...
	aGroup	testAttributeAssignValueDefName	enabled		testAttributeAssignValueDefNameDef	b1043...

Features:

- Display the 6 owner types (not including assignments on assignments)
- Each owner type selection changes the screen to show appropriate owner filters
- Filtering respects security of the logged in user
- Owner type is required, and displays a friendly message if not selected
- When selecting an owner and attribute name, you can assign it
- If owner or attribute name is not selected, then assigning will give a friendly error
- If the attribute def is not multi-assign and an assignment already exists for the owner/attributeName pair, then give a friendly error message
- Results should display a friendly message if none exist
- Show the extensions with a tooltip of the full name
- Filters should only show results that the logged in user is allowed to see
- Enable assignments to folders
- Enable filters for folders
- Enabled assignments to members
- Enabled filters for members
- Enable assignments to immediate memberships
- Enabled filters for immediate memberships
- Enable assignments to any memberships
- Enabled filters for any memberships
- Enable assignments to attribute definitions
- Enabled filters for attribute definitions
- Delete attributes with the delete button
- Delete button should have an alt and tooltip
- Delete button should confirm the delete before doing it
- Delete button should redraw the result list (without the attribute that was deleted)
- Add value button should add a value

- Edit value button should edit it
- Delete value button should delete it
- Ability to add attribute assignments on attribute assignments
- Edit the assignments for delete dates
- Delete assignments
- Display metadata assignments as different than normal so they stand out visually
- Filter and display by enabled/disabled
