NET+ LastPass

Welcome

Welcome to the NET+ LastPass wiki. This wiki is still under development. The NET+ LastPass service advisory board is also starting to be formed.

Many Internet2 member and non-member institutions take advantage of this service offering. If your institution is one of them then this wiki will provide details on how to make the most of your participation of the programming and interact with peers across Internet2 member institutions.

This program is open to all Internet2 higher education members and non-member higher education institutions. If you are looking details on how to join the program as a existing participant, please visit the Participate Tab of the NET+ LastPass webpage.

Subscribers may review the NET+ LastPass website.

Key Program Updates

TBD
