Welcome to the NET+ Splunk Program wiki! It contains information on the NET+ Splunk Service Advisory Board, resources developed as part of the NET+ Splunk program, NET+ Splunk Community user group calls minutes and recordings, etc. Future community resources around use cases and potentially community feature requests may be added in the future.

Please contact Nick Lewis at Internet2 if you have any questions.

Many Internet2 member institutions take advantage of this service offering. If your institution is one of them then this wiki will provide details on how to make the most of your participation of the programming and interact with peers across Internet2 member institutions.

This program is open to all Internet2 higher education members and non-members. If you are looking details on how to join the program, add licenses as a existing participant or move to the latest version of the NET+ Splunk Software License Agreement, please contact the Carahsoft Splunk Sales team.

The Internet2 NET+ Program Overview also has a high level description of the benefits of the program.

Key Program Updates

Subscribers may also review our previous blog posts for updates on the program.

Service Documentation and Resources

Accessibility: TBD
Identity: TBD
Information Security: TBD

Questions?

- Internet2 NET+ Service Management: netplus@internet2.edu
- Carahsoft Internet2 Splunk Sales Team: splunkinternet2@Carahsoft.com
- Internet2 Program Manager: Nick Lewis: nlewis@internet2.edu

Send Feedback or Submit a Feature Request:

The NET+ Splunk program is managed by an Internet2 program manager with the support of the NET+ Splunk Service Advisory Board.

The NET+ Splunk Service Advisory Board reviews and prioritizes community feature requests on a regular basis and discusses them with Splunk product leadership. Feature requests may be submitted to Nick Lewis.
