Federation practices

- Incident Handling
- Domain control validation procedure
- InCommon metadata validation procedure
- Metadata Registration Practice Statement (for eduGAIN participation)
- List of InCommon policies and procedures

Security Assertion Markup Language (SAML)

- OASIS SAML Wiki - The Bible to all things SAML.
- Wikipedia article on SAML 2.0 - A quick-ish primer.

Improving Interoperability

- Final Report of the InCommon Deployment Profile Working Group (draft)
- SAML V2.0 Interoperability Deployment Profile (saml2int)
- SAML V2.0 Subject Identifier Attributes Profile
- SAML V2.0 metadata extension for entity attributes

Working with federation metadata

- SAML V2.0 metadata guide
- SAML profile for metadata query protocol
- SAML V2.0 identity provider discovery protocol
- SAML V2.0 metadata extension for entity attributes
- The Entity Category Security Assertion Markup Language (SAML) Attribute Types
- REFEDS Hide from Discovery entity category specification
- REFEDS Research and Scholarship entity category specification
- Federation Manager user guide
- Metadata Query Protocol

Getting the attributes right

- Working with user data in InCommon
- SAML V2.0 Subject Identifier Attributes Profile
- eduPerson schema
- Attribute bundle for the Research and Scholarship entity category (section 5. Attribute Bundle)

Software references

- InCommon Federation software guidelines
- InCommon Trusted Access Platform (Deprecated)
- Shibboleth wiki
  - Shibboleth Identity Provider 3 documentation
  - Shibboleth Service Provider 3 documentation
  - Shibboleth knowledge base
- Grouper wiki
- COmanage wiki
- Midpoint wiki

Integration resources

- ADFSToolkit - Connect ADFS to research and education federations.
- Shibboleth integration guides for popular cloud platforms
