Welcome to the Uppsala University Grouper Page

Here are screenshots of the user interface developed at Uppsala University. It resides at our employee portal. Name searching is done directly against the same LDAP as we use for users inside Grouper.

In spring 2015 we'll start handling federated users also and they will be in the same user source as our normal users. We have a registration service built into our IdM-system.

Next step thereafter our student portal will implement group handling for student groups that is not automatically fetched from the student documentation system.

We'll also start to provision the groups to LDAP and possible Active Directory.

Create Group in Employee Portal -- Part 1

All employees at the university can create groups in our employee portal. In the backend Grouper is provisioned direct.

Create a group area

Name

Description (optional)

Web address (URL)

https://mp.uu.se/web/

Type of group area

- Hidden group area**
Gruppytans namn och innehåll är endast synligt för medlemmar. Inbjudan krävs för att bli medlem
- Visible group area**
Gruppens namn och antal medlemmar kan ses av användare tillhörande valda enheter. Personer kan ansöka om att bli medlemmar.
- Open group area**
Gruppytans namn, blogginlägg, kommentarer och antal medlemmar kan ses av användare tillhörande valda enheter. Personer kan själv välja att bli medlemmar.

Create Group in Employee Portal -- Part 2

Open group area

Gruppytans namn, blogginlägg, kommentarer och antal medlemmar kan ses av användare tillhörande valda enheter. Personer kan själv välja att bli medlemmar.

As an employee of Uppsala University, you are entitled to start a group in the Employee Portal.

When you start a group, you become responsible for ensuring that content published by you and others in the group area is free of information that a) could be regarded as offensive/injurious, b) is illegal pursuant to the Swedish Penal Code and/or c) violates any copyright. See [the Swedish Act on Responsibility for Electronic Bulletin Boards \(1998:112\)](#). You are expected to oversee the group area in a manner commensurate with your quickly being able to remove all information of this sort, to whatever extent published in your own or others' postings. If you or anyone else posts information that violates Swedish law, you can, in the event of a legal dispute, be held personally liable.

Terms and conditions regarding the use of group areas

I have understood and accept my responsibility for the group I am starting.

Create the group and add members

Admin Add Members

Group owner and group administrators can add members via this setup. The search is talking directly to LDAP that has the user base.

Add members

Search and select coworker

Search for co-workers at Uppsala University. The ability to invite external users is under construction.

Enter email or part of name

Members at Uppsala University

Axelsson, Pål
Group owner

Technical system administrator at Division for IT and Procurement; Office for Network and Server Administration

018-471 7918
Pal.Axelsson@uadm.uu.se

Sjöström, Catharina
Group administrator

Employee Director at Division for IT Strategy

018-471 70
catharina.sjostrom@uadm.uu.se

View Group Members

All group members can see members and remove them self.

Leave group
