

# Case Studies

For Tim Mori [NCState EZProxy Case Study](#)

Shibbolized EZProxy [at the University of Chicago](#)

"EZproxy has been central to the University of Chicago's plan to adopt Shibboleth . . ."

Shibboleth and EZProxy at the [University of Maryland system](#)

"Shibboleth - EZproxy integration is easy. EZproxy is configured as a shib SP . . ."

Shibboleth and EZProxy [at MIT](#)

"Our overall aim is to implement Shibboleth SSO as widely as possible so we can return authentication where it belongs; with central computing where credentials are managed . . ."

There is an interesting example of a diagram [from Cornell here](#). (Look at diagram #1.)
