Document for review/consultation

- Final Report of the Per-Entity Metadata Working Group

For more information about the working group, please see the Per-Entity Metadata Working Group wiki space.

Change Proposals and Feedback - We welcome your feedback/suggestions here

If you have comments that do not lend themselves well to the tabular format below, please create a new Google doc and link to it in the suggestion section below.

Number	Current Text	Proposed Text / Query / Suggestion	Proposer	+1 (add your name here if you agree with the proposal)	Action (please leave this column blank)
1		Clarify options for sites not using Shibboleth or SimpleSAMLphp	Tom Barton		Add clarification to the roadmap. See Clarify options for sites not using Shibboleth or SimpleSAMLphp for more details.
2		Comments on the Final Report of the Per-Entity Metadata Working Group	Tom Scavo (InCommon /Internet2)		The comments were discussed with Tom in a working group call, and the report was modified to address the issues.
3	Discussion of IdP 3.0.0 support	Since this report is coming out after V3.3.0 was released, maybe we should revise to reflect that as current state?	Scott Cantor	+1 Tom Scavo (see this list of Shibboleth mentions in the report)	The report was modified to reflect the current state of Shibboleth development.
4		Use of per-entity metadata in conjunction with AD FS	Allen Hudson (University of Rio Grande)		The report was modified to reflect ADFS's partial support for MDQ.
5		Comments on the Per-Entity Working Group report from Michael Gettes	Michael Gettes		The report was modified to address the comments, with the following exception of issue #10. While the group felt that the role of metadata distribution within InCommon's overall business strategy is an important issue that should be addressed, it is out of scope for this report.
