CAR Demonstrations

Note that new videos are being added frequently. Also note that some parts of the UI/UX are still being tested with users and that earlier iterations of parts of the UI/UX can be seen in some of the demos.

There are two sets of demos:

end users managing their attribute release, both in real time transactions and with a self-service utility to manage all existing release preferences and templates for new and off-line release

policy administrators setting organizational attribute release policies and site admins managing CAR

End-users managing Attribute Release

CIlogon as a streaming video https://internet2.box.com/s/8fywuggdthomagi6cxoihhpm9h2bii9m

CIlogon (earlier UI)

- ○ screen recording of access to CIlogon with CAR -   http://people.duke.edu/~rob/cilogon-consent-3.mov
- ○ as a streaming demo - https://internet2.box.com/s/texg2kbje2a73oel77nirwot57fafk6o (note latency at start-up)
- ○ and downloadable via a ZIP file containing the MOV from: http://people.duke.edu/~rob/cilogon-mov.zip

https://internet2.box.com/s/kgeo6lrkg6ktwj9n0new595tgoq4nf6h

Policy admins and site admins policy tools to customize the use of consent (to be added soon)

- Managing R&S release by group or affiliation
- Managing what applications need consent
- Managing what options are presented to the user
