Registry 1.0.7 Release Announcement

Internet2 and the COmanage Project are pleased to announce the release of COmanage Registry version 1.0.7. This release is a maintenance release. This version addresses various bug fixes.

We recommend all deployments upgrade to this release. Deployments on 1.0.0 or later may upgrade directly to this release. Deployments on earlier versions must follow the previously described upgrade paths to 1.0.0 before upgrading.

This is expected to be the final release of the 1.x series. COmanage Registry v2.0.0 will be announced shortly.

Full release notes are available at https://spaces.at.internet2.edu/display/COmanage/Release+History
