TI.35	**Baseline Expectations: Community Dispute Resolution Process** (note: earlier TI.35 was "Processes to Implement and Maintain Baseline Expectations of InCommon Participants." The process was flawed of changing the name of TI.35 . It had to do with Dean doing some restructuring of docs and there were some misunderstandings between Dean and TomB. In future we should always use new doc ID number for a new doc. In this case, eventually TI.105 got used for Processes to Implement BE of InCommon Participants). TI.35 is now marked as deprecated.
