Discussion items

Time	Item	Who	Notes
55min	Review EAMM-edu Document	Louis, Piet	- Reorder document to present Levels before attributes. - Is there some way to visual indicate a progression to maturity? - Is there a need for summarize the structure and approach the reader should take to the document? - Can each section have a stronger visual to focus attention? - What are the launch points for the document? How do I engage? - Let's clarify the audience. This is too complex for senior university administrators. - What is the EA place and how do we grow it? Put it in the hands of EA practitioners. - How many actions or practices will there be? Will this create a UX problem? We should consider the ramifications to a web presence. - Perhaps the CEB slide deck approach would be useful.

Action items

- ☒ Louis and Piet to work to incorporate comments into document and prepare for 10/20 Itana call
