

Grouper installer dev team internal package the tarball

For Grouper 2.5+ see the new approach for [Grouper 2.5+ packaging and versioning strategy](#)

1. SSH to login
2. SSH to i2mdev6
3. sudo su - mchyzer
4. getGrouperSource.sh branch (e.g. getGrouperSource.sh master)
5. Note the resulting tarball: /home/mchyzer/tmp/grouper-installer/build_mchyzer/grouper.installer-2.4.0.tar.gz
6. Note the resulting jar: /home/mchyzer/tmp/grouper-installer/build_mchyzer/grouper-installer/dist/grouperInstaller.jar
7. Go back to login server
8. sftp i2mdev6
9. lcd /tmp
10. get the resulting tarball: sftp> get /home/mchyzer/tmp/grouper-installer/build_mchyzer/grouper.installer-2.4.0.tar.gz
11. get the resulting jar: sftp> get /home/mchyzer/tmp/grouper-installer/build_mchyzer/grouper-installer/dist/grouperInstaller.jar
12. get the resulting jar:
13. exit sftp
14. sftp webprod3
15. sftp> cd /home/htdocs/software.internet2.edu/grouper/release/2.4.0/
16. rename with date stamp: sftp> rename grouper.installer-2.4.0.tar.gz grouper.installer-2.4.0.tar.gz.20181015 (CHANGE THIS DATE FOR CURRENT DATE)
17. rename with date stamp: sftp> rename grouperInstaller.jar grouperInstaller.jar.20181015 (CHANGE THIS DATE FOR CURRENT DATE)
18. sftp> put grouper.installer-2.4.0.tar.gz
19. sftp> put grouperInstaller.jar
