

# Itana Branded Presentations

If you are presenting work that was done under the Itana umbrella (Steering Committee, Working Groups, etc.), please use the Itana branding in your presentation. For Google Slides, please make a copy of the [Itana Theme 2018](#) deck and use the template that is included to build your deck. If you are using PowerPoint, please copy the logo on the third slide and insert it into the right hand lower corner of your slides (easiest done by editing the Master Slide).

You should include the following text on the first or last slide:

"Itana follows the Internet2 Intellectual Property Framework which can be found at: <https://www.internet2.edu/policies/internet2-intellectual-property-policy/>"

If you have any questions, please contact the [Itana Steering Committee](#).
