Registry 3.2.0 Release Announcement

Internet2 and the COmanage Project are pleased to announce the release of COmanage Registry version 3.2.0. This release is a feature release, introducing several new capabilities, including

- voPerson and LDAP Attribute Options
- Server Registry Objects
- Dashboards
- Salesforce Provisioning Plugin
- Crowd Provisioning Plugin
- Duplicate CO
- Group Membership Validity Dates
- Locally Stored Terms and Conditions
- Improvements to the "My Identity" Menu

Full release notes are available at https://spaces.at.internet2.edu/display/COmanage/Release+History

The project roadmap is available at https://spaces.at.internet2.edu/display/COmanage/COmanage+Product+Roadmap

We do not expect to further evolve the 3.1.x or earlier series, and as such we recommend all deployments upgrade to this release.

COmanage Registry v3.2.0 was made possible by contributions from several organizations, in addition to ongoing funding via Internet2. The project would like to thank

- Internet2
- The National Science Foundation
- The CILogon Project and the University of Illinois
- Modern Language Association
- The National Institute of Allergy and Infectious Diseases (NIAID, part of the National Institutes of Health) and NET ESOLUTIONS
- SUNET
- SURFnet

COmanage is funded by Internet2 and other sources. For further information about COmanage, including a list of funders, and to download the software, please visit: http://www.internet2.edu/comanage and https://spaces.at.internet2.edu/display/COmanage
