

# July 8 IAM Online to Feature Eduroam

---

## **IAM Online - Thursday, July 8, 2010**

1 p.m. EDT / Noon CDT / 11 a.m. MDT / 10 a.m. PDT

[www.incommon.org/iamonline](http://www.incommon.org/iamonline)

---

### **Federated Identity Management Essentials: Eduroam**

**Eduroam** ([www.eduroamus.org](http://www.eduroamus.org)) allows students, researchers and staff from participating institutions to obtain Internet connectivity when visiting other participating institutions. Authentication is done by the user's home institution, while authorization is done by the visited network. Eduroam is widely deployed in Europe, and also in Japan, Australia, and Canada.

This IAM Online will look at efforts to widen deployment in the U.S., led by the University of Tennessee. Louisiana State will provide examples of its deployment and we'll hear about the Eduroam working group of the CIC (Committee for Institutional Cooperation) schools.

---

#### **Host:**

Keith Hazelton, Senior Information Technology  
Architect, University of Wisconsin-Madison

#### **Guest Speakers:**

David Worth, Network Engineer, University of Tennessee  
John Borne, Technology Advisor, Louisiana State University

---

### **Connecting**

We use Adobe Connect for slide sharing and audio: <http://internet2.acrobat.com/iam-online>.

For further connection details, including a back-up dial-in conference call number for listening if you are away from your computer, see [www.incommon.org/iamonline](http://www.incommon.org/iamonline).

### **ABOUT IAM Online**

IAM Online is a monthly online education series including essentials of federated identity management, hot topics from the EDUCAUSE Identity and Access Management Working Group, and emerging topics in IAM. Experts provide overviews, answer questions and lead discussions. IAM is brought to you by InCommon in cooperation with Internet2 and the EDUCAUSE Identity and Access Management Working Group.
