

New2EA Working Group

Update

Itana is continuing the premier New to Enterprise Architecture (New2EA) Program in higher education. It is intended for new architects or architects new to higher education!

[Learn more](#) and join the list to [receive more information](#).

Overview

 The Itana New2EA Working Group is open to Itana Community Group members who are interesting in launching or relaunching an EA practice as well as those already running mature practices. Itana recognizes that the EA role is inclusive of multiple architecture disciplines.

- Business architecture -- Business architects, business stakeholders, business leaders, etc.
- Information architecture -- Information architects, data stewards, business and technical consumers, et.
- Technical architecture -- Technical architects, technical project managers and teams, etc.

Previous New2EA Activities

Working Group Calls

Through 2019 and 2020 the New2EA Working Group held almost thirty highly-valuable events, mostly exploring the skills and competencies required by Enterprise Architects working in higher education. Highlights included sessions on:

- [scoping your enterprise architecture practice](#)
- [what higher education looks for in enterprise architects](#)
- [enterprise architects sharing their career journey](#)

All meeting notes and slide decks from those events are linked from each year's call-program schedule:

- [New2EA WG 2019 Call Program](#)
- [New2EA WG 2020 Call Program](#)

We encourage people interested in what the New2EA Working Group has discussed to explore these resources and to participate with this active community.

Steering Team Calls

A team of volunteers works together as a Steering Team that coordinates the New2EA Working Group, and meets regularly to plan the call schedule, nominate topics of value to the community, and arrange facilitators and presenters for each session.

New2EA Survey

The results of a New2EA Community Survey held in 2018 are available in raw format in the Google Sheet "[New2EA Group Survey](#)".

Communications
