

Copy of InCommon Federation Library

InCommon makes possible trustworthy academic collaboration that reaches far beyond what a single organization can do on its own, through identity and access management technologies and services that are integrated across the globe.

Using metadata

Find and retrieve metadata for identity providers and service providers in InCommon and R&E federations around the world.

[search-small](#) [View topics](#)

[configure](#) [Download metadata](#)

Manage metadata with the Federation Manager

Use the Federation Manager to upload, edit, and publish your metadata to the InCommon Federation.

[search-small](#) [View topics](#)

[configure](#) [Sign into Federation Manager](#)

Working with the discovery service

Configure the discovery service to help your users easily find their home organizations during federated single sign on.

[search-small](#) [View topics](#)

Handling errors in federated SSO

Create a seamless federated SSO experience for your users. Manage those federated errors with care.

[search-small](#) [View topics](#)

Implement Federation best practices

Help the InCommon Federation help you get the most out of being InCommon. Learn and adopt Federation best practices.

[search-small](#) [View topics](#)

Earn badges: entity categories

Show your support for trusted, global research and scholarly collaboration with entity category badges for your IdP and SP.

[search-small](#) [View topics](#)

Deploy software

Get federation-optimized, packaged, and free identity and access management software: InCommon Trusted Access Platform

[workbox](#) [Get Software](#)

SAML and other technical references

Want to learn how things work under the hood? Check out the InCommon Federation technical references

InCommon policies and practices

Participant agreements, practices and policies; privacy statements; terms and conditions. Find them on the InCommon website.
