NET+ Duo Program

Welcome

Welcome to the NET+ Duo Security Program wiki! The NET+ Duo program, in collaboration with Internet2 and Duo Security, now part of Cisco, allows accredited U.S.-based institutions to deploy Duo's multi-factor authentication (MFA) broadly, efficiently and cost-effectively. This wiki is in development.

Many Internet2 member institutions take advantage of this service offering. If your institution is one of them then this wiki will provide details on how to make the most of your participation of the programming and interact with peers across Internet2 member institutions.

This program is open to all Internet2 higher education members and non-members. If you are looking details on how to join the program, add licenses as an existing participant or move to the latest version of the NET+ Duo Customer Agreement, please contact Duo EDU Sales.

Subscribers may review our mailing list archives for monthly updates on the program and the NET+ Duo program.

Service Documentation and Resources

Accessibility: TBD

Identity: TBD

Information Security: TBD

Contract and Pricing: TBD

Community Resources

Participate in our Online Community (Participants Only):

Institutions participating in the NET+ Duo program may take advantage of our email discussion list, receive our program newsletter and participate in other activities and events by joining our NET+ Duo email distribution list. Please contact netplus@internet2.edu to be added.

Join the NET+ Duo Community Forum (Open to all NET+ Duo Customers):

Customers of NET+ Duo are encouraged to join the NET+ Duo Community. Sign-up for the community e mail list or visit the Duo forum.

- Email: duo-advisory@internet2.edu

Questions?

- Internet2 NET+ Service Management netplus@internet2.edu

- Duo EDU Sales Team edu@duo.com

- Internet2 Program Manager: Nick Lewis nlewis@internet2.edu

Send Feedback or Submit a Feature Request:

The NET+ Duo program is managed by an Internet2 program manager with the support of the NET+ Duo Service Advisory Board.

The NET+ Duo Service Advisory Board reviews and prioritizes community feature requests on a regular basis and discusses them with Duo product leadership. Feature requests may be submitted to Nick Lewis.
