

NET+ Code42 Agreement Update - March 2019

New agreement completed 3/31/2019

Key Details/Changes:

- Customers contract directly with Code42
- Customer Agreement utilizes Internet2's standard current community negotiated Customer Agreement
- Existing per user pricing is maintained
- Agreement updates based on feedback from existing program participants and include:
 - Includes all [current Code42 product plans](#) (including All Access Education Pass)
 - Removes the restriction on ordering new licenses only once per quarter
 - Updated Business Associates Agreement (BAA) and Data Processing Addendum (DPA)
- Ability to set a *special billing date* to align with the institutions fiscal year
- Existing Customers are encouraged to move at their next renewal

To obtain a review copy:

A copy of the new agreement is available for your review and may be obtained by emailing netplus@internet2.edu and/or your Code42 account representative.

Announcement:

We are pleased to announce the completion of a revised version of the NET+ Code42 agreement. This agreement utilizes Internet2's standard current community negotiated Customer Agreement, which is significantly streamlined from the previous agreement and removes Internet2 from the contract flow allowing Customers to contract directly with Code42. The main difference with the new contract is that it is between the institution and Code42, while still governed under the facilitation agreement between Internet2 and Code42. It also maintains the existing pricing tiers in place for all customers on the most recent contract.

There are several important updates included in the agreement that were requested by program participants:

- Includes all available Code42 products and services, including [new Incydr offerings](#)
- Removes the restriction on ordering new licenses only once per quarter
- Updated Business Associates Agreement (BAA) and Data Processing Addendum (DPA)

A copy of the new agreement is available for your review and may be obtained by emailing netplus@internet2.edu.

Existing Customers are encouraged to move to the new agreement at their next contract renewal. If you have a question on your annual renewal date, please email netplus@internet2.edu. Code42 account managers will work with you to assist in the process.
