Get Audit Entries

Grouper Web Services

Description

Get audit entries for groups, stems, and subjects. Available in Grouper v2.5 or later.

Features

- Returns audit entries only to admins or read-only admins
- Can actAs another user
- For audit type and action, run this query: "select audit_category, action_name from grouper_audit_type gat order by 1, 2", or see this class: edu.internet2.middleware.grouper.audit.AuditTypeBuiltin

Get audit entries Lite service

- Accepts one owner group, owner stem, or a subject
- Documentation: SOAP (click on getAuditEntriesLite), REST (click on getAuditEntriesLite)
- For REST, the request can put data in the query string (in URL or request body)
- REST request (colon is escaped to %3A): GET /grouper-ws/servicesRest/v2_5_000/audits
    - Note: if passing data in request body e.g. actAs, use a POST
- (see documentation above for details): Request object, response object
- Response codes
- Samples (all files with "Lite" in them, click on "download" to see file)

Get audit entries service

- Accepts multiple owner groups, owner stems, or subjects
- Documentation: SOAP (click on getAuditEntries), REST (click on getAuditEntries)
- REST request (colon is escaped to %3A): POST /grouper-ws/servicesRest/v2_5_000/audits
- (see documentation above for details): Request object, response object
- Response codes overall
- Returns an overall status, and a status for each assignment
- Samples (all files without "Lite" in them, click on "download" to see files)
