## Open Lists and Channels

Public lists and channels are available for any member of the community to join.

### [comanage-announce@internet2.edu](mailto:comanage-announce@internet2.edu)

Project announcements, including product releases. This list does not permit posting.

[add Subscribe Here](#)

### [comanage-users@internet2.edu](mailto:comanage-users@internet2.edu)

Discussion list for COmanage deployers and administrators, both current and potential.

[add Subscribe Here](#)

### [#incommon-comanage](#)

Community Slack channel for deployers and administrators of COmanage Registry.

### [#incommon-match](#)

Community Slack channel for deployers and administrators of COmanage Match.

Join by sending email to [help@incommon.org](mailto:help@incommon.org) with the Subject: Please add me to the COmanage Slack Channel (for Registry) or COmanage Match Slack Channel (for Match).

## Closed Lists and Channels

Closed lists and channels require an invitation based on participation to join.

### [comanage-dev@internet2.edu](mailto:comanage-dev@internet2.edu)

Discussion list for active project developers and contributors.

### [#incommon-comanage-core](#)

Slack channel for active project developers and contributors.

### [#incommon-comanage-core-ux](#)

Slack channel for project developers contributors, focused on user experience discussions.

# Inactive Lists and Channels

## **cmp-discuss**

Discussion group for any technologies, policies, or use cases associated with collaboration management platforms, and especially general (non-product specific) topics or topics crossing multiple technologies. This is *not* a CManage specific list, and is not sponsored by the CManage Project or Internet2.

## **collab-intl**

International Collaboration Middleware Coordination

## **comanage-contact**

Point for requests for info

## **comanage-coord**

Passing notes regarding outreach, immediate priorities, operational tasks

## **comanage-community**

Passing notes regarding outreach, immediate priorities, operational tasks
