Consultation on IdP as a Service Working Group Report

Community Review

This consultation has closed.

Background

The InCommon Technical Advisory Committee (TAC) invites you to participate in a consultation on the Identity Provider as a Service (IdPaaS) Working Group Report. The report analyzes community needs and recommends
ways InCommon can make Federation participation more accessible through support of cloud-based IdPaaS solutions.

Document for Review/Consultation

- InCommon Federation Identity Provider as a Service Working Group Final Report

What is a consultation?

Working groups and advisory groups produce reports, recommendations, standards, best practices, and related documents. These are then provided to the community for review in the form of a consultation. In addition, policy and other documents developed by Internet2 Trust and Identity division staff may undergo the community consultation process to gather broader input and awareness before becoming finalized.

Change Proposals and Feedback - We welcome your feedback/suggestions here

If you have comments that do not lend themselves well to the tabular format below, please create a new Google doc and link to it in the "Proposed Text /Query/Suggestion column below

Number	Current Text	Proposed Text / Query / Suggestion	Proposer	+1 (add your name here if you agree with the proposal)	Action
(example)	(page 3) "Publish and promote an article on the InCommon website pertaining to the advantages of multilateral federation"	<Insert your suggestion here>	Ida InCommon
