Baseline Expectations - Improvements coming soon!

The InCommon Federation operations team has been working throughout 2023 to introduce a series of enhancements to help participants maintain adherence with Baseline Expectations. We are happy to announce that the first set of these changes will soon appear in Federation Manager. [Learn more](#).

About Baseline Expectations

The InCommon [Baseline Expectations for Trust in Federation](#) are comprised of three brief sets of statements for the parties participating in the InCommon Federation: Identity Provider Operators (IdP), Service Provider Operators (SP), and the Federation Operator. Participants are required to adhere to these statements as a condition of participating in the Federation. Together, these statements:

- provide a baseline for trust
- make collaboration more predictable
- ensure that the InCommon Federation's strategic value to research and education continues to grow.
