Registry Person Roles

A Registry *Person Role* is intended to represent a Person's relation to the CO. A Person can have more than one Person Role.

Date Model Elements

There are several attributes of interest attached to the Person Role: affiliation, COU, department, manager, organization, sponsor, status, title, and validity dates. Person Roles can also be ordered (within the same Person).

In addition, the following multi-valued attributes can be attached to Person Roles:

- Ad Hoc Attributes
- Addresses
- Telephone Numbers
- URLs

Changes From Earlier Versions

As of Registry v5.0.0

- `affiliation` was replaced with `affiliation_type_id`.
- `o` was renamed `organization`.
- `ou` was renamed `department`.
