

Trust & Identity PAG minutes: Feb 14, 2022

Attendees: Jen Leasure, Klaas Weirenga, Chris Misra, Marc Wallman, Laura Paglione, Brad Christ, Dave Robinson, Brett Bieber

With: Kevin Morooney, Ann West, SteveZoppi, Elaine Alejo

Regrets: Rachana, Kristi, Michael Berman, Jeremy Livingston

Agenda

- **New members- introductions**
 - **Jen Leasure- The Quilt**
 - **Brett Bieber - Univ of Nebraska dir security of engineering**
 - **Klaas Weirenga- GEANT**
- **InCommon PAG powerpoint-**
 - Overview-
 - Community trends driving change
 - Pandemic
 - NSF/NIH- how do individuals outside of InC get IAM questions answered
 - CIO's and CISO's -community losing IAM experience and knowledge
 - Target audiences
 - CIO, CISO
 - IAAM practitioners
 - Research community
 - Library Community
 - Program Responses
 - Follow through on commitments
 - Keep contacts up to date
 - Services and programs
 - Eduroam
 - Complete service transition to the cloud
 - Open production eduroam program for K-12, museums and libraries
 - InC Federation
 - Baseline Expectations 2
 - Address Backlog- metadata, scanning all services to manage standards over time
 - 579 registered identity providers
 - 5433 registered services
 - Develop programs to help new campuses join InC
 - OARnet-
 - InC certificate service
 - Help community automate the missing of certs
 - Sectigo is the provider
 - 673 R & E subscribers
 - Provides unlimited certs
 - Engage community to share lessons learned with ACME
 - Brett looking for a way to make it easier and secure, using letsencrypt
 - Security model that insures those under the cover
 - InC Trusted Access Platform
 - IAM software solution for research and education
 - Shibboleth, Grouper, CoManage, midPoint
 - Moving to focus on software solutions rather than components
 - Gather use data-turn on Telemetry
 - InC academy
 - Free IAM course
 - InCommon Federation and cert service training
- **InC community**
 - Library and seamless Access
 - Growing the IAM Pipeline
 - Provide a forum for CIO's to explore IAM Questions
- **Next steps**
 - Focus on things to make them easier to access
 - Training, service, content, community, practitioners, developers

Klaas- GEANT a little different we don't serve schools we serve research institutions. A lot of parallels . Want to improve the basic services the community relies on. Harder to enforce. ½ of the turnover comes from EU funding

Sustainably operate and evolve existing T&I services

GEANT delivers a number of T&I services for the benefit of the R&E community in Europe, and beyond. Those services can be grouped by following service brands/families: eduroam, eduGAIN, InAcademia, eduTEAMS, MyAcademicID, MyAccessID and GEANT SP proxy. While service operations and development are funded through different projects, in most of the cases service teams are constituted by members from our community and where skills are not available, by contractors.

Have decided to make an Common AAI platform. GEANT 5 project (in a yr) has been approved so now they need to go into recruiting mode. High level direction is similar to Internet2 and we can help each other.
