PEER Project Phase 3

Timeframe

Timeline: September 2011 - December 2011

Description

Phase 3 of the PEER project will test PEER 'in anger', with three live implementations. SWAMID will operate an instance of PEER for internal use, NORDUnet will operate a public instance of PEER and the UK will run a public instance of PEER. This phase will eventually feed-in to a sustainability plan for PEER to be considered by REFEDS and other interested parties.

Work Areas

WORK AREA 1: PROJECT MANAGEMENT					
Work Item	**Description**	**Deliverable**	**Due Date**	**Owner**	**Status**
