

# Registry User Roles

- **Platform Administrators** have full access to all COs.
- **CO Administrators** have full access to their CO.
- **COU Administrators** can view and manage Person/Person Role records within their COU.
- NEW: Support Desk personnel have full view access into all People records, but no write access. ([CO-1156](#))
- By default, no other users have access to anything, including Group Managers. All other permissions are granted via Dashboard Widgets.
