

Quota Management for Google Workspace for Education

The quota management sub-working group of the [Cloud Storage Working Group](#) has focused on the creation of a set of best practices and documentation for common scenarios such as universities planning to use Google Workspace for Education long-term, move away from Google, or maintain a hybrid environment.

The group comprised more than twenty universities and was led by Justin Zemlyak of Indiana University and David Barks of the University of Maryland, College Park.

Resources:

[We held a webinar session on April 11th, 2023](#) and covered approaches your peer organizations are taking about the various approaches your peer organizations are taking for Quota Management and get access to the resources this workgroup is making available to benefit the higher ed community. Speakers included: Justin Zemlyak, Indiana University, Chuck Boeheim, Cornell University and John Kelly, University of Notre Dame. Here is the [presentation](#) used in the webinar on April 11th
