Grouper Survey Main Takeaways - TomB (5 minutes)

Grouper Training and Documenation - TomB (? Minutes)

- - How many attended the IAM webinar or saw the archived version?
- - Is there interest in future Grouper webinars?
- - What other kinds of training are you interested in?
- - Thoughts on improving Grouper documentation?
- - Anyone ready to partner with us in working on the docs?

Focus of v2.1 & v2.2 development
-- What are the Community's Priorities? ChrisH to lead open discussion, Shilen to record comments on slides that are projected (20 minutes)

Note: Timing for Grouper 2.1 release: Try to keep Grouper 2.1 slim (focus on LDAPPC-NG Real time) and release in October or November

Grouper Roadmap: https://spaces.at.internet2.edu/pages/viewpage.action?pageId=14517754

Possible Items for Grouper 2.2:

- Ldappcng enhanced design for real time & incremental
- New Grouper UI
- packaging VT-LDAP in default jndi connector
- internationalization tweaks
- Subject API enhancement -- can subject web services securely release attributes based on permissions?
- include sample attributes and permissions definitions for qs database -- it is easier to opt in if there is some infrastructure/samples/framework in place
- representing schemas as subjects
- allow group type be allowed to be an entity with no members https://lists.internet2.edu/sympa/arc/grouper-dev/2011-08/msg00016.html
- Upgrade hibernate or other 3rd party libraries?
- Reflecting LDAP and AD into Grouper via Loader? Via Ldappcng?
- uPortal / Grouper Integration: (looking for a partner)
- Increasing the number of web services (for attribute framework and permissions to create resources)
- New Grouper requirements/directions coming out of OSidM4HE Initiative?
