Agenda Feb 8

Welcome Piet and Keith

Review of the SOA questionnaire:

1. The questions have been ported to a Google form: https://docs.google.com/spreadsheet/viewform?formkey=dDFvT1N1SXNSekF1cDdaNGhWZVJCdHc6MQ
2. There is a wiki page with the same questions. We can use this as a place to collect comments: https://spaces.at.internet2.edu/display/itana/Comments+on+questions
3. There are some (incomplete) explanatory notes that can (eventually) be attached to the survey: https://spaces.at.internet2.edu/display/itana/Questionnaire+explanatory+notes

The original sandbox page is still at https://spaces.at.internet2.edu/display/itana/Standard+questions. But I'm treating this as deprecated. I think it would be helpful if we can treat the Google form as canonical and iterate over that as we continue to refine the questions.

Proposed timelines

1. Initial review of form with working group: February 8
2. Review on ITANA call: February 16
3. Educause proposal: February 19 (deadline 21st)
4. March-July: interviews and surveys
5. August-October: collating and reviewing results
