## Items covered for this sprint

- jira tickets listed [here](#)
- 

## 2012-03-28 scrum call

### Attending

- Benn
- Marie
- Scott

### Scruminess

- What have you done since the previous call?
    - Scott - Grouper 2.1 testbed set up, test of previously written PHP code for calls to Grouper
    - Marie - More UI stuff: theme for body, header, etc
    - Benn - Phoenix f2f
  - What are you planning to do between now and the next call?
    - Scott - More Grouper integration work
    - Marie - More UI stuff
    - Benn - Hopefully finish up validation
  - Any impediments/stumbling blocks?
    - Scott - Current Grouper PHP uses Grouper SOAP API, should we use REST instead? For now expediency suggests start with SOAP API.
    - Marie - None
    - Benn - None
- 

## 2012-03-30 dev call

### Attending

- Benn
- Marie
- Scott

### Agenda

1. Scrum
2. Grouper to COmanage group name space discussion (Scott)
3. Notes from Phoenix f2f (Benn)
4. Latest "requirements" (Marie)

### Scruminess

- What have you done since the previous call?
  - Scott - More Grouper integration work
  - Marie - More UI stuff
  - Benn - Phoenix f2f, Some progress on petitions controller

- What are you planning to do between now and the next call?
  - Scott - More Grouper integration work
  - Marie - More UI stuff
  - Benn - Hopefully finish up petitions controller
- Any impediments/stumbling blocks?
  - Scott - None
  - Marie - None
  - Benn - None

## Notes

1. Grouper namespace discussion
  - a. For now stick with a simple model where Registry gets a folder in Grouper and goes to town underneath
  - b. A whitepaper for VOs for best practices in group layout might be useful
2. Need an RFE process to handle things like requirements requests from LIGO folks
3. f2f discussed "driving collaboration deep within the stack"
