Scruminess

- What have you done since the previous call?
    - Marie: solved the COU error; finishing up tests and will commit soon
    - Benn: nothing since the I2 meeting
    - Scott: continue to work on Grouper; found that there are some small bugs that need to be fixed with previous code, but so far fairly minor (having to undo queries that rely on fancy cakePHP features that require a RDB which doesn't work with a grouper as a back end)

- What are you planning to do between now and the next call?
    - Marie: commit code and work on more layout/UI stuff (depending on the sprint list)
    - Benn: may not get back to COmanage stuff before next scrum
    - Scott: keep working on the grouper stuff, not sure tho' if will get to that before Wednesday

- Any impediments/stumbling blocks?
    - Marie: no blockers
    - Benn: time
    - Scott: some travel this week
